Please practise spelling these words, little and often is the best way.

Remember to keep practising the common exception words as well.

	Week 1 Homophones - these words sound the same but mean different things. Write a sentence for each word you practise to show you understand its meaning.	Week 2 Another recap of adding ing/ed to root words Can you spell these root words? Try adding -ing or -ed to these words. What change do you need to make?	Week 3 Using apostrophes in spellings We use apostrophes to show contractions and possession.	Week 4 A recap of adding suffixes to words ending in 'y' - if a root word ends in a consonant followed by 'y' then you change the 'y' to an 'i' before adding -ed, -er or -est. You don't need to change the 'y' if you are adding -ing or if the letter before it is a vowel. Try adding -ed, -er -est or -ing to these root words
